Estimados clientes y colaboradores...

¡Somos MOBIPARK!

Desde hace más de 30 años, en Mobipark diseñamos y fabricamos juegos infantiles, elementos deportivos y mobiliario urbano, para **crear espacios** públicos rurales y urbanos que te acompañen a lo largo de toda tu vida.

Desde nuestras instalaciones en Albalat dels Sorells (Valencia), nos centramos en desarrollar las mejores soluciones, basándonos siempre en los valores del **diseño**, la **sostenibilidad** y la **inclusión**, y gracias a nuestro equipo multidisciplinar de personas damos cobertura nacional e internacional.

Trabajamos bajo un modelo de **mejora continua**, poniendo el foco en la **innovación y calidad**; en la rapidez y fiabilidad de entrega y en ofrecer el mejor servicio pre- y postventa, como muestran las certificaciones de todos nuestros productos según las normativas europeas y la Gestión de calidad (ISO 9001) y Medioambiental (ISO 14001).

Del mismo modo, alineados con los ODS mundiales, registramos la huella de carbono de nuestra empresa e innovamos con **materiales reciclados y reciclables**, entre otras medidas en la **lucha contra el cambio climático**. Así mismo, nos esforzamos en aportar nuestro granito de arena para ayudar a crear una sociedad responsable con su entorno, que cree empleo de calidad y que luche por reducir las desigualdades entre personas.

En definitiva, en Mobipark queremos contribuir a mejorar la salud, el bienestar y la diversión de las personas, invitándolas a **jugar y disfrutar en todas las fases de su vida**.

For more than 30 years, at Mobipark we design and manufacture children's playground equipment, sports equipment and urban furniture in order to **create** rural and urban public **spaces** that accompany you throughout your life.

From our facilities at Albalat dels Sorells (Valencia/Spain), we concentrate on developing the best solutions always based on the values of **design**, **sustainability** and **inclusion**, and thanks to our multidisciplinary team we provide national and international coverage.

We work according to a model of **continuous improvement** with focus on **innovation and quality**, fast and reliable delivery and on offering the best pre- and after-sales-service, proven by the certifications of all our products according to European safety standards and Quality and Environmental management systems (ISO 9001 and 14001).

In line with the global SDGs, we also register our carbon footprint and innovate with **recycled and recyclable materials** among other measures to **tackle climate change**. Likewise, we strive to contribute our grain of sand to help create a responsible society with its environment that creates quality employment and that endeavours to reduce inequalities between people.

Finally, at Mobipark we want to take part in improving people's health, well-being and fun, inviting them to **play and enjoy in all phases of their lives**.

INCLUSIÓN y DIVERSIDAD en el Parque Infantil

¿Por qué es **importante** la inclusión en los parques infantiles?

El juego es una actividad esencial para el desarrollo de los niños y niñas.

Al jugar desarrollamos nuestras habilidades sensoriales, motrices, cognitivas y emocionales.

En la **Declaración de los Derechos del Niño** se reconoce como fundamental el derecho de cualquier niño a **jugar**, a la **despreocupación** propia de su edad y a **divertirse**.

Todos los niños y niñas, sin y con diversidad funcional, **comparten el deseo** de poder **jugar con sus amigos y amigas en parques infantiles emocionantes**.

Why inclusion at playgrounds is **important**?

Playing is an essential activity for children's development.

By playing we develop our sensory, motor, cognitive and emotional abilities.

In the Declaration of the Rights of the Child it's stated the right of any child to **play**, to childhood's **carefreeness** and to join in **leisure activities**.

All children, with and without functional diversity, share the wish to play with friends **at exciting playgrounds**.

INCLUSION and DIVERSITY on the Playground

¿Por qué creemos en la inclusión?

Los **parques infantiles inclusivos** contribuyen a la **integración e inclusión en la vida normalizada** de niños y niñas de todas las edades, antecedentes culturales y capacidades.

El reto es asegurarse de que cada infante recibe **el estímulo y el desafío** que necesita del conjunto del área de juego, pudiendo todos ellos adaptar el uso del mismo a sus condiciones y habilidades.

Why do we believe in inclusion?

Inclusive playgrounds contribute to the **participation and inclusion in normal life** of children of all ages, of any cultural background and any diversity.

The challenge is to ensure that each child receives the **stimulation and dare** that he or she needs from the playground as a whole, being able to adapt the use of it to their conditions and abilities.

¿Cómo fomentamos la inclusión?

Creamos espacios de juego inclusivos bajo criterios de **diseño universal** y que ofrecen un **alto valor lúdico** con una **variedad de experiencias** de juego y **diferentes niveles de reto**.

En Mobipark, creemos firmemente en la importancia de desarrollar estos ambientes, donde todas las personas pueden **participar de manera activa y disfrutar juntas**.

How do we foster inclusion?

We create inclusive play areas under criteria of **universal design** that offer a high play value with a variety of play experiences and different levels of challenge.

At Mobipark, we firmly believe in the importance of developing these environments, where all people can actively **participate and enjoy together**.

CREEMOS JUNTOS LET'S CREATE TOGETHER

1 Nos inspiramos juntos Together we inspire

Nos reunimos para captar no sólo las necesidades de área y juego, sino también la historia y esencia del lugar.

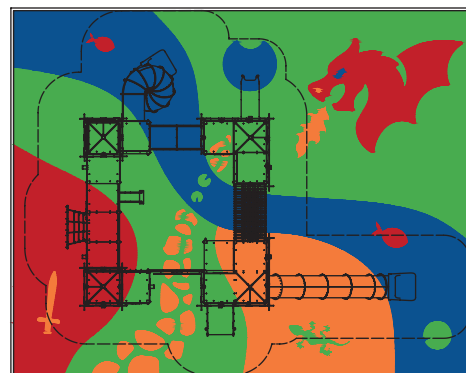

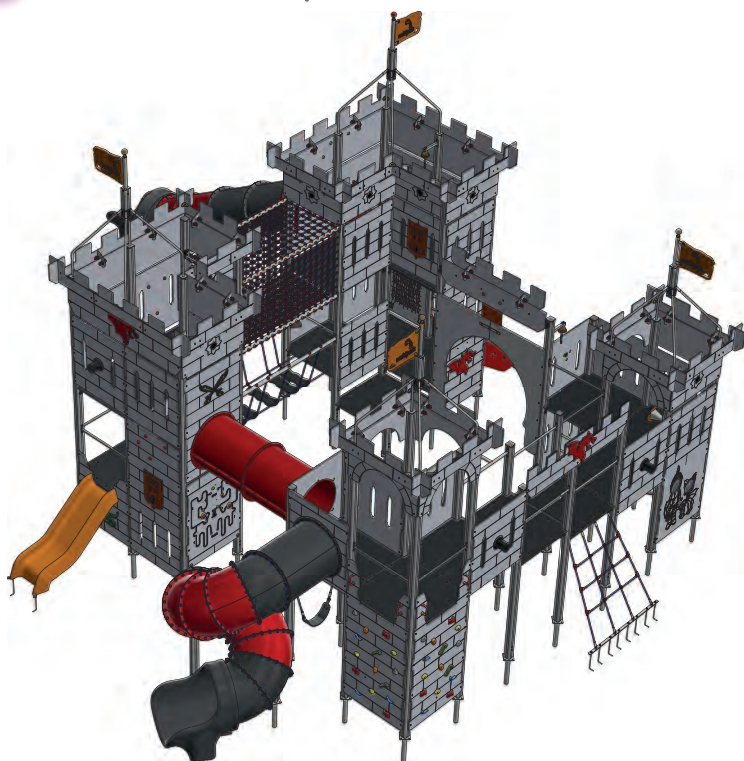

We meet to capture not only the requirements for the area and the equipment, but also the history and essence of the place.

2 Lo transformamos en productos We transform it into products

Transformamos las ideas en elementos divertidos, seguros y que cumplan con todas las normativas vigentes.

We transform the ideas into exciting and safe play elements that comply with all actual norms.

3 Cuidamos cada detalle We care about details

Damos importancia a todos los elementos que formarán parte del área, desarrollando un proyecto totalmente integrado con el entorno.

We give importance to all the elements that will be part of the area, developing a project fully integrated with the environment.

4 Lo convertimos en realidad We make it real

Materializamos todo el trabajo en la creación de un área única, que sirva de encuentro y diversión para toda la familia.

We materialize all the work in creating a unique area, which serves as a place of encounter and pleasure for the entire family.

Mobipark es... Mobipark is...

... SOSTENIBILIDAD

Registramos nuestra **Huella de Carbono** y nuestros objetivos están alineados con los **ODS Mundiales**. Además, impulsamos la **Economía Circular** utilizando materiales reciclados y reciclables y fomentamos el **consumo responsable** alargando la vida de nuestros productos.

... SUSTAINABILITY

We register our **Carbon Footprint** and our goals are aligned with **Global SDGs**. We also promote the **Circular Economy** by using recycled and recyclable materials and foster **responsible consumption** by extending the longevity of our products.

... CALIDAD Y COMPROMISO

Tenemos preferencia por **proveedores de cercanía**, fomentando así la economía de proximidad, y sólo utilizamos **materias primas de alta calidad** para fabricar productos que también lo sean.

... QUALITY AND COMMITMENT

We give priority to regional **suppliers** thus promoting the economy **of proximity** and we only use **raw materials of high quality** to manufacture also high-quality products.

... DISEÑO

Ponemos el foco en la **originalidad y funcionalidad** de nuestros diseños, creando **espacios inclusivos** y de juego seguro, como muestran las certificaciones de todos nuestros elementos. Además, nos adaptamos a las necesidades particulares de clientes y usuarios, creando **proyectos únicos y personalizables**.

... DESIGN

We focus on the **originality and functionality** of our designs, creating **inclusive and safe play areas**, as demonstrated by the certifications of all products. Moreover, we adapt to the particular needs of customers and users carrying out **unique and customizable projects**.

... JUEGO Y DIVERSIÓN

La **infancia** es el elemento central de todas nuestras áreas de juego. La inclusión, el desarrollo de los niñ@s y, por supuesto, la diversión son la base de todos nuestros proyectos. Del mismo modo, queremos fomentar **la vida sana y el ejercicio al aire libre** sea cual sea nuestra condición o edad.

En definitiva, en Mobipark, ayudamos a crear **relaciones entre personas** estudiando el entorno y las necesidades de cada área, adaptando nuestros productos a ellas y creando así espacios realmente únicos.

... PLAY AND FUN

Childhood is the central element of all our playgrounds. Inclusion, the development of the children and, of course, fun are the basis for all our projects. Likewise, we intend to encourage **healthy living** and **outdoor exercise** whatever our condition or age.

Finally, at Mobipark we help to create **relationships between people**, studying the environment and the needs of each area adapting our products to them and in this way creating truly unique spaces.

MEJOREMOS NUESTRO MUNDO LET'S MAKE OUR WORLD BETTER

Desde 2020, contribuimos al desarrollo sostenible de la sociedad, ayudando a alcanzar los ODS marcados en la Agenda 2030.

Queremos ser parte del cambio. ¿Te unes?

SALUD Y BIENESTAR

- Entorno de trabajo seguro y sin riesgo para todo nuestro equipo.
- Productos que fomentan la actividad física en infancia, adolescencia y madurez.
- Productos seguros y certificados según la normativa vigente.

TRABAJO DECENTE Y CRECIMIENTO ECONÓMICO

- Flexibilidad Horaria y Conciliación Familiar.
- Contratación de personal local y 100% indefinida.

INDUSTRIA, INNOVACIÓN E INFRAESTRUCTURA

- Materiales y Productos innovadores, de gran calidad y larga durabilidad.
- Optimización y Digitalización de procesos de diseño, fabricación y logística.
- Socios fundadores de AFAMOUR.
- Gestión de Calidad (ISO 9001).

REDUCCIÓN DE DESIGUALDADES

- Desarrollo de productos inclusivos y adaptados a todo tipo de capacidades.
- Integración de la diversidad como valor explícito de la empresa.

CIUDADES Y COMUNIDADES SOSTENIBLES

- Productos para la mejora del ámbito urbano.
- Instalaciones adaptadas para disfrute de todos los públicos libre y gratuitamente.

PRODUCCIÓN Y CONSUMO RESPONSABLES

- Apuesta por proveedores de proximidad.
- Fomento de la economía circular: revalorización de residuos, productos reciclados y reciclables.
- Gestión Medioambiental (ISO 14001).

Since 2020, we contribute to the sustainable development of society helping to achieve the SDGs set out in the 2030 Agenda.

We want to be part of the change. You join?

GOOD HEALTH AND WELL-BEING

- Safe and risk-free work environment for our entire team.
- Products that encourage physical activity during childhood, adolescence and adulthood.
- Safe products, certified according to actual norms.

DECENT WORK AND ECONOMIC GROWTH

- Flexible working hours and work-family reconciliation.
- Recruitment of local staff and 100% permanent contracts.

INDUSTRY, INNOVATION AND INFRASTRUCTURE

- Innovative materials and products, of high quality and long durability.
- Optimization and digitization of design, manufacturing and logistics processes.
- Founding members of AFAMOUR.
- Quality management system (ISO 9001).

REDUCED INEQUALITIES

- Development of inclusive products adapted to all kinds of abilities.
- Integration of diversity as an explicit value of the company.

SUSTAINABLE CITIES AND COMMUNITIES

- Products that improve the urban environment.
- Installations made for use by all public, unrestricted and free of charge.

RESPONSIBLE CONSUMPTION AND PRODUCTION

- Commitment to suppliers of proximity.
- Promotion of the circular economy: waste revaluation, recycled and recyclable products.
- Environmental management system (ISO 14001).

OBJETIVOS DE DESARROLLO SOSTENIBLE

Materiales y componentes

Los materiales empleados en nuestros productos son materiales de muy alta calidad y gran resistencia. Al tiempo que conllevan un mantenimiento muy reducido, responden a unos requisitos exigentes de funcionalidad, seguridad y larga durabilidad.

The materials employed for our products are of high quality and strong resistance. At the same time they're low maintenance, they meet high requirements in terms of functionality, safety and long lifetime.

Aluminio Aluminium

Postes estructurales de aluminio EN-AW6063, tratamiento térmico T5, anodizado con Sello de Calidad "QUALANOD". Ligeros, estéticos y de bajo mantenimiento, facilitan ensamblaje, transporte e instalación. Su perfil complejo brinda estabilidad. Superficie lisa y resistente a la corrosión. Beneficio ecológico: fabricación nacional con 25% de material reciclado y 100% reciclable después de su vida útil.

Structural posts in EN-AW6063 aluminium, heat treated T5, anodised with "QUALANOD" quality seal. Lightweight, aesthetic and low maintenance, they are easy to assemble, transport and install. Its complex profile provides stability. Smooth, corrosion-resistant surface. Ecological benefit: national manufacture with 25% recycled material and 100% recyclable after its useful life.

Acero inoxidable Stainless steel

Es el material verde por excelencia, totalmente reciclable después de su vida útil. Resistente a la corrosión, la oxidación, al desgaste y anti-vandálico. Utilizamos acero inoxidable de calidad A314 A314 (AISI 304) con certificación ISO9001 y fabricamos con este material de superficie completamente lisa estructuras de juegos, barras, toboganes y una infinidad de componentes.

It is the green material par excellence, completely recyclable at the end of its service life. It's resistant to corrosion, oxidation, wear and tear and to vandalism. We use stainless steel of grade A314 A314 (AISI 304) with certification ISO9001 and produce with this completely smooth material playground structures, bars, slides and a wide range of components.

Acero galvanizado en caliente Hot-dip galvanized steel

El recubrimiento del galvanizado otorga al acero mayor dureza y resistencia y una protección integral (interior y exteriormente) de las piezas. No necesita mantenimiento, por lo que en Mobipark vemos idónea su utilización en el mobiliario urbano.

Galvanization covering assigns the steel a major hardness and resistance and an integral (interior and exterior) protection of the pieces. Hot-dip galvanized steel is free of maintenance, that's why we consider it ideal for the use in urban furniture.

Materials and components

Acero cincado con posterior revestimiento en polvo de poliéster

Zinc-plated and powder-coated steel

El resultado es un acabado uniforme de alta calidad, muy atractivo y durable. Soporta los rayos UV sin perder su resistencia a los agentes físicos y químicos.

The result is a homogeneous finishing of high quality, very attractive and durable. It withstands UV radiation without losing its resistance to physical and chemical agents.

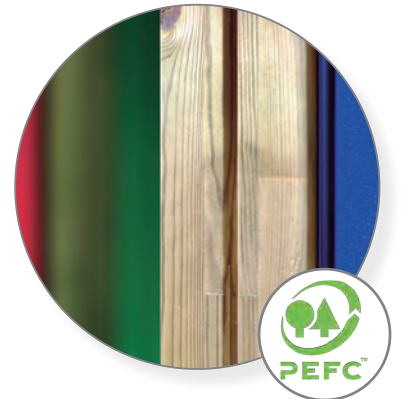

Madera

Wood

Madera de pino de Suecia, proveniente de bosques sostenibles con certificación PEFC y FSC. Utilizamos madera maciza y madera laminada, constituida por láminas de madera maciza pegadas entre sí y tratada en autoclave. Destaca por su gran resistencia y durabilidad, idónea para el uso al aire libre.

Coming from sustainable managed forests with certification PEFC and FSC, we use Swedish pinewood as solid wood and laminated wood, compounded of laminates of solid wood agglutinated with each other and finally autoclave treated. Characterized by great resistance and durability, it's ideally suited for outdoor use.

Madera tropical

Tropical wood

Caracterizado por su elegancia y gran dureza, para mobiliario urbano sofisticado. Con certificación PEFC.

Acabado con recubrimiento protector "lasur" fungicida, insecticida e hidrófugo.

Distinguished by its elegance and high density, it confers sophistication to the urban furniture. With PEFC certification. Finish treatment with fungicidal, insecticidal and hydrophobic protective glaze covering.

Materiales y componentes

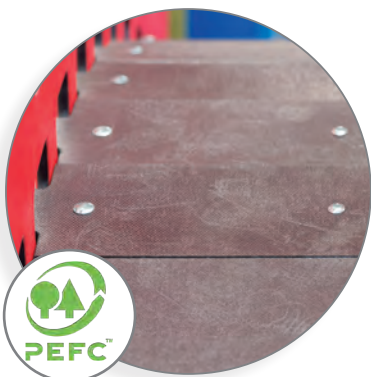

Madera técnica

WPC (wood plastic composite)

Compuesto de fibra natural y polímero termoplástico reciclado. Beneficio ecológico: aprovechamiento del reciclaje y menor tala de árboles. No produce astillas ni grietas y es libre de mantenimiento: La nueva generación de mobiliario urbano.

Composite of recycled thermoplastic polymer and natural fibre. Ecological benefit: utilization of recycled material and less deforestation. WPC does not produce splinter nor fissuring and it's maintenance-free: The new generation of urban furniture.

Contrachapado fenólico antideslizante

Laminated phenolic nonslip wood panel

Máxima calidad, compuesto de chapas de madera 100% abedul encoladas entre sí con resinas fenólicas. Con certificación PEFC. Versátil, resistente y con superficie antideslizante, ideal para plataformas, escalones y pasarelas. Resistente a la intemperie gracias a su película de protección anti-humedad.

Top quality. Laminated panel of layers of wood 100% birch conglomerated with phenolic resin. With PEFC certification. Versatile, resistant and with nonslip surface, ideal for platforms and steps. The protective layer anti-humidity makes it particularly weather-proof.

PEAD HDPE

Polietileno de alta densidad (PEAD / HDPE), 100% reciclable, con excelente resistencia al impacto, la abrasión, al desgaste, a los rayos UV y la intemperie, ideal para productos anti-vandálicos al aire libre. Su resistencia a los agentes químicos permite eliminar graffiti sin dañar su superficie. No tóxico, es apto para el uso en productos infantiles. Utilizamos vistosos tableros formados por tres capas, - las superficies exteriores en color, el centro del panel en negro de HDPE reciclado. Además del aprovechamiento de reciclado permite realizar grabados decorativos en el panel.

High density polyethylene (HDPE), 100% recyclable, characterized by excellent resistance to impacts, frequent and exhaustive usage, UV rays and weatherproof, ideal for outdoor usage for vandal-proof products. Resistant to chemical agents allows eliminating graffiti without damaging the surface. Non-toxic, it's suitable for usage in products for children. We use colourful three-layered panels. The outer layers are in colour, the core layer is recycled black HDPE. Apart from utilization of recycled material, it allows to realise decorative engravings.

Materials and components

HPL

HPL es un laminado de alta presión que destaca por su enorme robustez. Utilizamos tableros con acabado liso y estriado para la fabricación de diferentes tipos de paneles.

HPL is a high pressure laminate characterized by an enormous robustness. We use plates with smooth and with groove surface for the production of different types of panels.

Cuerdas Rope

Cuerdas de multifilamentos de polipropileno anti-vandálicas armadas con alma de acero galvanizado trenzado.

Armed ropes composed of galvanized steel core wires wrapped with multiple polypropylene strings.

Asientos de columpios Swing's seats

La placa interior de aluminio proporciona estabilidad, mientras el revestimiento de caucho EPDM/TPE garantiza máxima seguridad.

The aluminium insert plate proportions rigidity, while the coating with injection moulded EPDM/TPE rubber guarantees safety.

Piezas de nylon Nylon pieces

Tapones, agarraderas, reposapiés, uniones... fabricados en nylon por su gran resistencia mecánica, dureza, rigidez y resistencia al desgaste.

Coverings, handles, foot rests, connecting pieces... made of nylon for its high mechanical resistance, hardness and rigidity.

Materiales y componentes

Tornillería Screws

Toda la tornillería utilizada en Mobipark está fabricada en acero galvanizado o acero inoxidable. Destaca su gran solidez en ensamblajes así como su resistencia al desgaste y la corrosión.

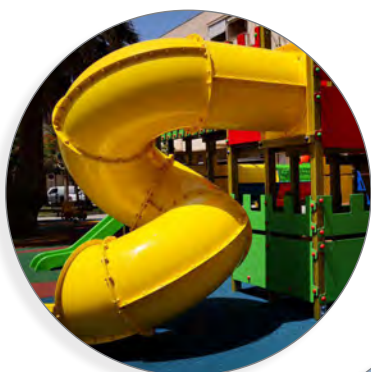

All screws and bolts used by Mobipark are made of galvanized or stainless steel. Excellent thanks to the high solidity for assembling and the resistance to abrasion and corrosion.

Anclajes Anchoring

Casquillos de anclaje de acero galvanizado en caliente evitan el contacto directo de la humedad del suelo con la estructura de madera.

Bottom sleeves of hot-dip galvanized steel avoid direct contact of the ground humidity with the wooden structure

Toboganes y tubos Slides and tubes

Según la gama de juegos, en polietileno, poliéster reforzado con fibra de vidrio o acero inoxidable.

Depending on which playground product line, they're made of polyethylene, glass-fibre reinforced polyester or stainless steel
